15 July 1963

MEMORANDUM FOR: The DCI

1. This memorandum is for information only.
2. Herewith comments by the Director of Security, dated 15 July 1963, on Mr. Dulles' new book, THE CRAFT OF INTELLIGENCE, and a copy of a memorandum by the Director of Security, dated 8 July 1963, giving specific objections to Mr. Dulles of his chapter on Security, particularly the statement that compared with the Soviet system, "it would appear that we are rather lax."
3. These two comments together with those in my memorandum of 11 July 1963 strengthen my recommendation that a committee of USIB pass on this manuscript, and that the White House and State Department be informed and furnished with copies.
4. There will surely be repercussions when this book is published and questions raised as to whether and why it was cleared by the Director of CIA.
